Subject: Lead Region PFAS involvement

Hi Chris and Linda,

I wanted to send a quick note to touch base on PFAS issues. At some point we should touch base on the HA/PFAS response document we received from OW. I think we need to determine what, if any, follow-up we should move forward with.

I also wanted to ask that I be included on PFAS meetings in the future. I see this issue only heating up more and as such I want to be effective with the regions as I communicate about issues and concerns. I will be in DC tomorrow and Wednesday, so unfortunately I won't be available for the Wolverine meeting, however, I hope in the future I can participate in such meetings.

Thanks for your consideration,

Kate Balasa
